Slider Options

Slider behaviour   [Linear ▼]

Adjust Bet Size by [Small Blind* ▼]

Mouse Control Options

☑ Enable Mouse Wheel
☑ Jump to clicked position

*Please note: Amounts will be in Ante for short deck games.

Table size should be «default»:

Attention: usually PartyPoker uses «.» symbol as decimal delimiter. But if your client uses comma «,» (see picture below), you must change tablemaps in /scraper bot folder.

Open PartyPoker6max_cash.tm in notepad and add this line to //strings section:

<center>s$use_comma_instead_of_dot   true</center>

For example:

```
//
// strings
//

 s$use_comma_instead_of_dot   true
s$!titletext               SPINS
```

And then save this file. Do the same with other partypoker .tm files (if you have the full version).
